# 1. What are escape games about

A real life escape game is a form of entertainment that involves the use of your skills, such as cleverness, perceptiveness and intelligence.

The aim of the game is to escape within 60 minutes from the room by using clues and puzzles hidden in there.

Our game is only based on logic and there is no language involved in any part of it, which makes it accessible for anyone. Each game/room is scheduled for teams of 2-4 people.

We have 3 separate and completely different rooms, each of them has an original set of riddles: "The Spaceship", "The Prison" and "Alice in Wonderland"

# 2. What's more ?

## 2.1. Teambuilding

The escape game experience itself will blow your mind away, but there is more!

Because you might want to stay a little longer...

At Let Me Out there is no waiting time, if your group is too big and not everyone can play, we have the perfect format to suit your wishes. While half of your team are locked up in another dimension, the other half of the team will be taken away by our animation staff. Therefore we have foreseen the right place and a brilliant team to entertain you.
